PASSIONS

Piano

Thanks to the piano, my ability to concentrate on a task have been increased.

Tennis

Tennis helped me to listen to people and to take into account their criticisms.

Video Games

Video Games are very important to me, especially online. It helped me to be more social and to work in a team.

Chess

I used to play chess at the competition level. I still play but less. It helped me to take my time on action and to measure her impact.
